

Priority 1

Priority 1:

Our Communities – Resilient And Thriving

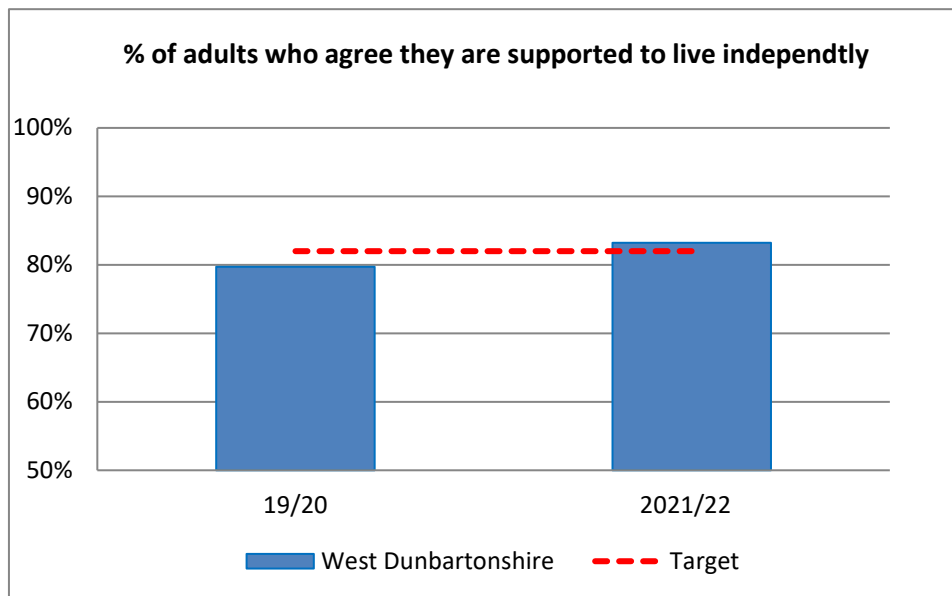

Indicator:

Percentage of Adults supported at home who agree that they are supported to live as independently as possible

Target:

82%

What does the data say?

The data for 2021/22 shows that performance had increased slightly (3.5%) from the previous recording and that the target was met.

This indicator is populated from the Scottish Health and Care Experience Survey. This postal survey is carried out every two years. The latest data from the 2021/22 survey reported 83.2% of West Dunbartonshire respondents agreed that they were supported to live as independently as possible.

The next survey is scheduled to take place in 2023/24 and results will be available May 2024.
