Amber

Priority 2

Objective 2:	Indicator:	Target:
Our Environment - A Greener Future	Percentage of residents satisfied with Parks and Open spaces	75%

What does the data say?

The data for 25/26 shows that performance decreased 4% from the previous year and the target was missed.

Performance has been gradually declining since 2020/21.

The continued progress of a number of initiatives which are underway and recently completed, including improving play parks should increase satisfaction.
