REVIEW OF POLLING DISTRICTS AND PLACES 2018

Polling Place Name:	Kilmaronock Millennium Hall
Address:	Church Road, Gartocharn G83 8NF
Type of Property:	Private hall
Scottish Parliament Constituency:	Dumbarton
Local Authority Wards Served:	Ward 1 Lomond
Existing Polling Districts at this place and breakdown of number of voters per district (as at August 2018):	LO1D – 516 (100 postal voters)
Proposed New Polling District:	LO1D (no change)
Total number of voters proposed to be served at this place (as at August 2018):	516 (100 postal voters)
No of polling stations for UK General Election held in June 2017:	1
No of polling stations recommended for election at UK Parliamentary Constituency:	1

Returning Officer's comments on this Polling Place:

This is the main community hall for the village. It is well situated, with a disabled access ramp at the side of the property leading directly into the lower hall which is used for polling.

The hall offers generous accommodation for the single polling station and there are adequate facilities for staff.

Retain as a polling place.

REVIEW OF POLLING DISTRICTS AND PLACES 2018

Polling Place Name:	St Kessog's Church Hall
Address:	Balloch Road, Balloch G83 8LQ
Type of Property:	Church Hall
Scottish Parliament Constituency:	Dumbarton
Local Authority Wards Served:	1 - Lomond
Existing Polling Districts at this place and breakdown of number of voters per district (as at August 2018):	LO4D - 1109 (166 postal voters)
Proposed New Polling District:	LO4D (merge LO4D and LO5D)
Total number of voters proposed to be served at this place (as at August 2018):	Merge = 1724 (253 postal voters)
No of polling stations for UK General Election held in June 2017:	1
No of polling stations recommended for election at UK Parliamentary Constituency:	2 (increase to accommodate voters from LO5D, if approved)

Returning Officer's Comments:

The merger of LO4D and LO5D has been proposed due to the small distance (0.5 mile) between the two polling places both of which have operated with a single polling station for a number of years. It is inevitable that some electors will have to travel further to vote but those electors who reside in the more remote areas of LO5D would have to travel by car to vote regardless of which of the two places were used. If the polling districts are merged into one then St Kessog's Church Hall is the more central of the two locations and is therefore the logical choice to be retained as polling place.

This is an established polling place with suitable access for all voters. It has ample space to accommodate an additional polling station if merged with the existing LO5D. It is recommended that this polling place be retained; polling districts LO4D and LO5D be merged and the number of polling stations be increased to two to accommodate the additional electors from LO5D.

No of polling stations recommended for election at UK Parliamentary Constituency:	4

Returning Officer's Comments:

Following the interim review of the polling scheme in 2015, the Council agreed that electors in the Beechwood Housing Estate should now vote in the Bonhill Community Centre as the previous polling place, Highdykes Primary School, had closed.

It is recommended that the existing polling districts: LE10D and LE11D now be merged to form a single polling district and all electors continue to vote in the Bonhill Community Centre.

Returning Officer's Comments:

There is only one disabled parking space to the front of the premises, which if used would obstruct the lowered kerb for wheelchair users. This has been brought to the attention of the Centre's management and may be resolved prior to the next planned election.

The main hall is no longer available as this is now used as a gymnasium. A single polling place could operate in the café area but there are some visual and physical restrictions due to large structural pillars. It is the view of the election team that there is sufficient space for a single polling station. The Planning Section has advised that there could be a small number of new properties built in this area over the next five years which could mean there is a need for an additional polling station. The Election Office will continue to monitor the situation and report back to Council if an interim review is required in this area.

The Returning Officer would welcome any views on the proposal to use the café area for future polls and, in the absence of any other suitable polling place being identified in the polling district, would recommend that this be the designated polling place for the Brucehill area (DU16D).

The Planning Section has advised that up to 176 new properties could be built within this polling district within the next five years. There is sufficient capacity within Bowling Community Hall to cope with this increase.

For administrative reasons, it was necessary to create a new polling district: DU24C as the new Ward boundary line between Dumbarton and Kilpatrick does not align with the existing Scottish Parliamentary boundary between the Dumbarton and Clydebank & Milngavie Constituencies' boundaries. However, the small number of voters affected (10) will still be able to vote in the same polling place as before. It is the Returning Officer's intention to request that the Scottish Parliamentary boundary line be adjusted at the next boundary review to align with the new Ward boundaries and resolve this anomaly.

No of polling stations for UK General Election held in June 2017:	4
No of polling stations recommended for election at UK Parliamentary Constituency:	4

Returning Officer's Comments:

The absence of a suitable polling place in the Mountblow area means that electors from that area have to vote in the Dalmuir Barclay Church Hall, which is large enough to accommodate multiple polling stations but is just outside the polling district boundary. While this is not ideal there are no suitable alternatives at this time.

Retain as polling place.

Returning Officer's Comments:

This is an established polling place with suitable access for all voters. However, there is some uncertainty at present as to whether the building will still be made available for the purpose of holding a poll. Providing this hall is available to use as a polling place, then this will be the designated polling place for this area. The Returning Officer would welcome any suggestions as to a suitable alternative polling place within this polling district.

Total number of voters proposed to be served at this place (as at August 2018):	Nil
No of polling stations for UK General Election held in June 2017:	1
No of polling stations recommended for election at UK Parliamentary Constituency	Nil

Returning Officer's Comments:

It is recommended that the two existing polling districts which currently cover the Old Kilpatrick area be merged into one single polling district and all electors are asked to vote in Napier Hall which can easily accommodate another polling station. While some voters will inevitably have to travel a little further to Napier Hall to vote, the main benefit of this proposed change is that the local school will not need to close on the day of a poll.

Do not retain as a polling place and merge polling district with CW13.

No of polling stations for UK General Election held in June 2017:	3
No of polling stations recommended for election at UK Parliamentary Constituency:	4 (increase to accommodate voters from the Gavinburn area)

Returning Officer's Comments:

The Planning Section has advised that up to 418 new properties could be built within this polling district (Carless site) within the next five years although there is some uncertainty as to whether or not this development will proceed. That aside, there is sufficient capacity to add another polling station if required but it may be easier for voters from this area to vote in Dalmuir Barclay Parish Church. The Election Office will continue to monitor the situation and report back to Council if an interim review of the scheme is required in this area.

Utilise additional room to accommodate voters from the Gavinburn area.

Retain as a polling place and merge polling districts CW12C and CW13C to form new polling district CW12C.
