

LOCAL DEVELOPMENT PLAN 2

**Proposed Plan
Action Programme (Proposed)**

West 
Dunbartonshire
COUNCIL

September 2018

Introduction

This is the Action Programme for the Proposed West Dunbartonshire Local Development Plan 2: Proposed Plan.

This Action Programme supports the Proposed Local Development Plan and helps to drive forward its implementation. It identifies the actions to be undertaken to take forward the policies and proposals of the Plan, setting out:

- the organisation responsible for taking the lead for each action;
- the partner organisations which will support implementation; and
- a timescale for carrying out each action.

The Action Programme is an important document for guiding the implementation of the Proposed Local Development Plan 2 and the success of the Plan will in part be determined by the realisation of the actions set out in this Programme.

It is important that the Action Programme is regularly reviewed to ensure it remains relevant and realistic, taking account of available resources, market viability and national priorities and strategies. An updated Action Programme will be published at least every two years.

The Proposed Local Development Plan and accompanying documents can be viewed at <http://www.west-dunbarton.gov.uk/council/strategies-plans-and-policies/local-development-planning/local-development-plan/>

If you have any questions regarding the Proposed Local Development Plan please contact us.
