

Priority 2

Objective 1:

More affordable and suitable housing options

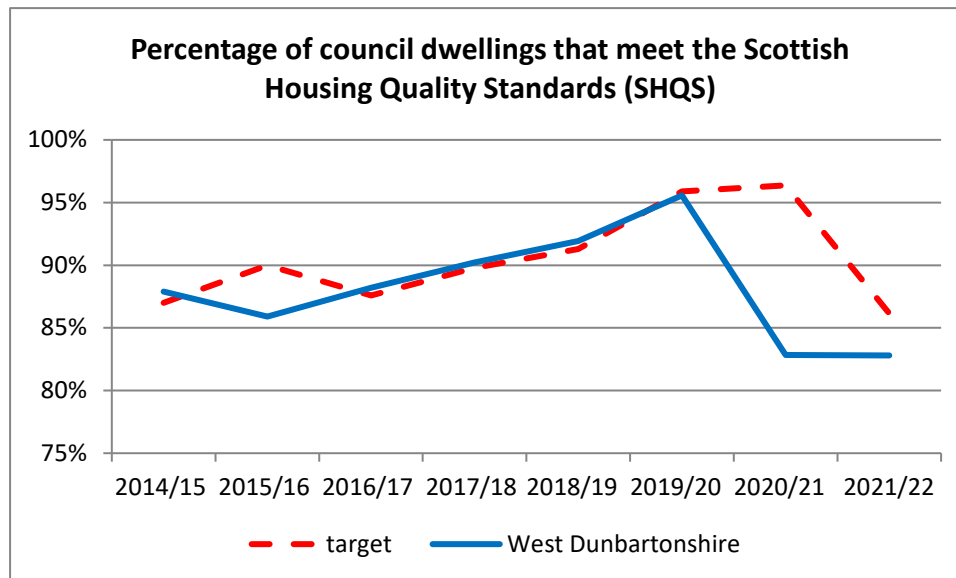

Indicator:

Percentage of council dwellings that meet the Scottish Housing Quality Standards (SHQS)

Target:

86.2%

What does the data say?

The percentage of Council dwellings that meet SHQS standards has fallen slightly short of the target set for 2021/22.

Performance has been largely affected by Covid-19. The pandemic impacted the ability to deliver all SHQS programmed work.
