What does the data say?

Results for 2021/22 show a fall in performance from the previous year. This measure shows improvement over time comparing performance in 2021/22 against the base year of 2016/17 and there had been improvement in 6 of the 12 indicators.

The covid-19 pandemic had an impact on a number of the PIs as service delivery was affected by government restrictions as well as a shift in priorities at the start of the pandemic. Four of the PIs that didn't improve last year had been showing improvement in previous years suggesting the pandemic had impacted the final overall performance.
