

Priority 2

Objective 2:

Our Environment -
A Greener Future

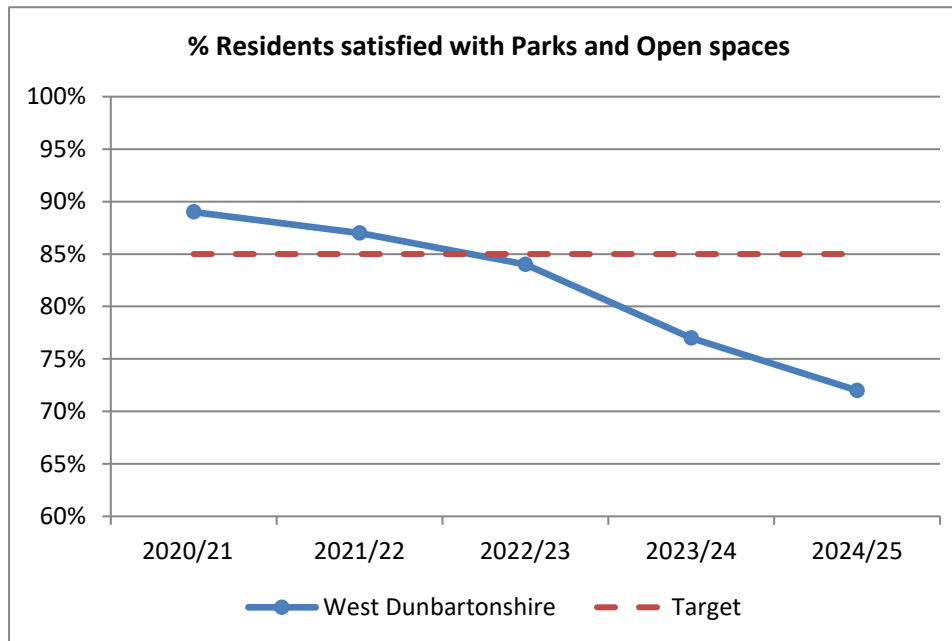

Indicator:

Percentage of residents satisfied with
Parks and Open spaces

Target:

85%

What does the data say?

The data for 24/25 shows that performance decreased 5% from the previous year and the target was missed.

Performance has been gradually declining since 2020/21.

The continued progress of a number of initiatives which are underway and recently completed, including improving play parks should increase satisfaction.
