2023/2024 Annual Revision to the Sustainable Procurement & Commercial Improvement Strategy

Background

Section 15(1)(b) of the Procurement Reform (Scotland) Act 2014 requires that the Council review its procurement strategy for the current financial year and make such revisions to it as the Council considers appropriate.

Council Strategy – section 4

The recently published <u>Public Procurement Strategy: 2023 to 2028 for Scotland</u> aims to provide a future high-level vision and roadmap for Scottish public procurement which all public sector bodies can align to and deliver against. This Public Procurement Strategy has put in place initiatives, practices and policies to enable the profession to deliver innovative approaches to procurement.

In light of this, section 4.4 to 4.11 of the Council's Strategy will be replaced by the Public Procurement Strategy's "Good For's" which follows similar priorities, aims and success statements:

- Good for businesses and employees;
- Good for society;
- Good for places and communities; and
- Open and connected

Following the reduction in the Corporate Procurement Unit numbers it will be necessary to re-prioritise with some non-statutory functions being put on hold, ceasing or reducing. Additionally some statutory targets may prove challenging.

Amongst the measures which may be impacted are:

- Levels of contract management;
- A reduction in data for reporting;
- 100% compliance with timescales for publication of Contract Notices; and
- Maximisation of Social Benefits

These matters are reflected in appendix 2.

Council Strategy – appendix 2

As part of the annual revision to the Council's Strategy, appendix 2 will be replaced with the following:

Our Economy			
Our area has the infrastructure for sustainable and inclusive growth where businesses can flourish			
Performance Indicators	Target 23-24	Owner	
% of Contract & Supplier Management scorecards delivered where the Supplier at	100%	Annabel Travers	
a minimum, meets the Social Benefits expectations
