YOUR SAY**

Rent levels affect all tenants, even if it's paid through Housing Benefit or UC, so it's important that we receive feedback from as many tenants as possible. Voting closes 31/1/25.

## Tenant Participation Strategy 2025-28

New Tenant Participation Strategy for 2025-28 called 'Involving Tenants to Improve Housing Services' was agreed at the November Housing Committee. The emphasis of tenant participation being about improving performance was identified in the consultation as needing more promotion and is one of the key aims that unite tenants and staff so that has been included in the Strategy's name and emphasised throughout the strategy. Actions also include support to existing tenants groups, develop more digital options and increase engagement with under-represented groups so that all tenants can have their say. Tenants said they also wanted more face-to-face contact with housing staff and more commitment from officers so actions to improve the culture within Housing services and communication are included to address these issues. An accessible version of the Strategy should be available on the Council's website in the New Year or contact Jane for a copy.
