Red

Priority 2

Objective 2:

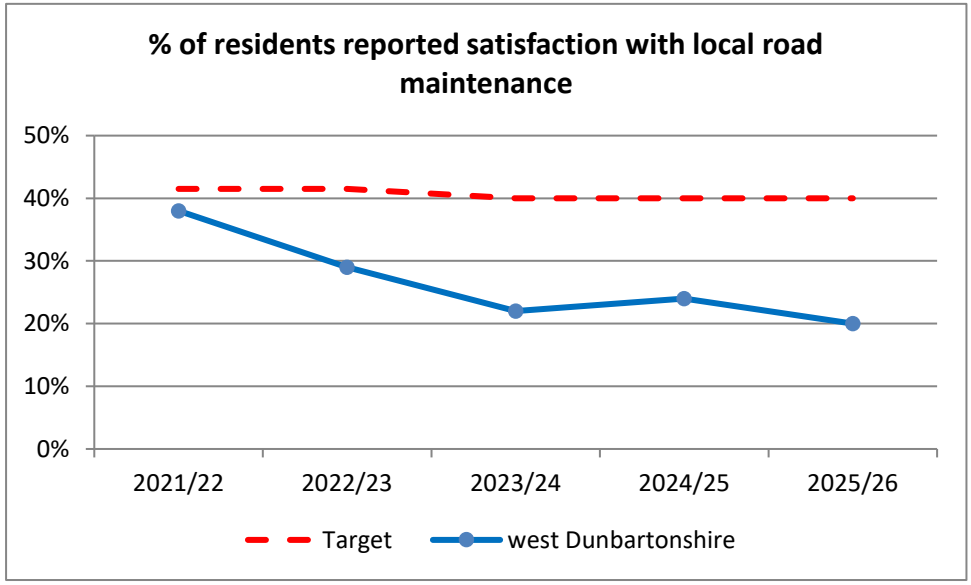

Our Environement -
A Greener Future

Indicator:

Residents reported satisfaction with local road maintenance

Target:

40%

What does the data say?

Results for 2025/26 show a small decrease in performance and the target set has been missed.

Satisfaction data is now sourced from the Councils Citizens panel. Responses from the panel included concern with the number and size of potholes, poor general maintenance of roads and concern over lack of white lines in locations.

There continues to be investment in the road network in line with the roads asset management plan.
