Indicator:

% Employee Attendance Improvement Rate (Teachers and Local Government)

Target:

1%

What does the data say?

The results for 2025/26 show that performance increased 3% from the previous year but the target was not met.

The attendance improvement rate has improved compared to last year, this is due to an decrease in sickness absence in Q1 and Q2, but an increase in Q3 and Q4 meant the target was not met. Work continues to support employees to maintain their health and wellbeing at work through application of the Supporting Employee Wellbeing policy and promotion of a range of employee supports and benefits.
